

City of Fitchburg Head Water Service Inspector

The City of Fitchburg is seeking qualified candidates for the position of Head Water Service Inspector in the Division of Water Supply, within the Department of Public Works. This position is responsible to oversee the metering program for all residential and commercial water service connections, as well as the cross connection control/backflow prevention program for the City's public water system.

The ideal candidate for this highly responsible position will have a MA Grade 2D water license and Backflow Device Tester and Cross Connection Surveyor certifications, as well as an excellent working knowledge of the function, operation, installation and maintenance of water meters and electronic registration and reading equipment.

The City of Fitchburg offers an excellent benefits package, opportunities for overtime, on-call compensation and additional stipends, in addition to career growth opportunities within the Water Division.

Interested and qualified candidates may view the complete job description and apply at www.fitchburgma.gov. The hiring range for this position is \$27.45 - \$30.89 per hour. AA/EOE
