The City of Marlborough’s Department of Public Works – Engineering Division is seeking qualified applicants for the position of Junior Civil Engineer.

Responsibilities include:

- Civil Engineering design and plan preparation for public works projects, and review of plans for permitting.
- Surveying for marking property lines, construction layout, and data collection for City asset management.
- Construction cost estimating calculations including field measurements and plan take-offs, and verification of quantities for construction project pay requisitions.
- Engineering support for other DPW Divisions and for other City Departments.
- Construction project scheduling.
- Assistance with management of the Department’s Road Opening Permit Program
- Assistance with DPW snow and ice operations using non-CDL vehicles and equipment such as sidewalk plows and blowers
- Training subordinate department personnel.
- Construction inspectional services for public works projects.
- Plan and data research for City employees and for public requests, and maintenance of electronic and paper Engineering files.
- Performs other duties as required.

Bachelor of Science in Civil Engineering or related field is preferred; Minimum two (2) years of field and office experience in civil engineering and/or land surveying required. Possession of a valid Massachusetts motor vehicle operator’s license required.
