

CITY OF SHELTON
ENGINEERING DEPARTMENT
JOB DESCRIPTION
TITLE: ASSISTANT CITY ENGINEER

GENERAL DESCRIPTION:

This is a responsible engineering position involving the performance of a variety of engineering duties in support of the City Engineer. The work involves responsibility for the preliminary review of subdivision road plans, inspection of construction and the design of road and drainage improvements. Duties include review and comment on subdivision plans, site plans and commercial construction and assisting the City Engineer in the coordination, reparation, and inspection of assigned projects. This position has the responsibility for making routine engineering technical decisions. The work requires that the employee have good knowledge, skills and ability in basic municipal civil engineering work.

SUPERVISION RECEIVED:

Works under the direction of the City Engineer.

EXAMPLES OF DUTIES:

Reviews and comments on subdivision plans, site plans and inspects construction in progress.

Prepares designs for road and drainage improvements.

Coordinates pavement restoration projects with utilities and contractors.

Updates the City's pavement management system and participates in the inventory and rating of City roads.

Assigns house numbers for new houses and buildings and advises the Assessor and Building Departments.

Follows up on City sidewalk survey and initiates necessary action for replacement or re-pavement.

Works with Highway Department when road and drainage problems occur in the City.

Represents the City Engineer at meetings with utilities and developers.

Oversees and delegates work assignments for Civil Engineering Technicians.

Performs related work as required.

KNOWLEDGE, SKILLS AND ABILITIES:

Good knowledge of civil engineering principles and practices as applied to road construction and drainage.

Considerable ability in oral and written communication.

CITY OF SHELTON
ENGINEERING DEPARTMENT
JOB DESCRIPTION
TITLE: ASSISTANT CITY ENGINEER

Considerable ability to establish and maintain effective working relationships with the Administration, Supervisor, subordinates, consultants, contractors, associates, and the general public.

Good ability to interpret engineering regulations and standards, and to perform complex engineering calculations. Should have proficiency in various computer programs necessary to perform job related tasks.

QUALIFICATIONS:

A Bachelor's Degree in Civil Engineering, Physical Science and/or equivalent or related degree from a recognized college or university and one (1) year of experience in municipal engineering design, or an Associate's Degree in Civil Engineering or Civil Engineering Technology with three (3) years' experience in municipal engineering design, or six (6) years' of progressively responsible municipal engineering design experience, substituting on a year-for-year basis. Must have a valid Connecticut Class 3 driver's license.

This description lists only those job duties necessary for salary evaluation and does not include each and every requirement and may be revised.
