The Town of Shrewsbury seeks an energetic person to join the Water & Sewer Division within the Department of Public Works as the Water Treatment Plant Operator. The person selected for this full-time position will be the primary operator for the Town's state-of-the-art water treatment plant that went online in the fall of 2018. The new Home Farm Water Treatment plant has been meticulously maintained since construction was completed and has allowed the Town to consistently remove manganese biologically to near non-detect levels. The successful candidate will be a valuable member of a team of industry professionals responsible for the maintenance and operation of the Town's water and sewer systems. Duties include, but are not limited to:

- Oversee and participate in the operation and maintenance of Water Treatment Facilities
- Direct and conduct continuous study of complex plant operating procedures and processes
- Oversee complex laboratory testing procedures in order to maintain drinking water quality standards within EPA and DEP requirements
- Oversees and participates in the operation and maintenance of the Town's water pumping stations in order to maintain proper operation status.

The role requires a Treatment Grade 4 License, or ability to obtain within 1 year of hire. The successful candidate will be compensated at \$31.50 per hour, and will move through a salary range up to \$38.02 per hour throughout their tenure.

When applying for this position, a cover letter and resume may be sent via email to Christine Mattero, Human Resources Coordinator, at cmattero@shrewsburyma.gov. The initial review of applicants will begin on Monday, July 18, 2022. Position open until filled.
